# GOLDEN MEASURE

## A Super Gladiolus--Pure Yellow

---

We have waited many years since the introduction of this world-famous English gladiolus, to be able to offer it in quantities within the reach of every pocket book.

### THAT TIME HAS ARRIVED

We are Glad and Know You Will Be.

**GOLDEN MEASURE**—is a strong, healthy grower with giant flowers. In rich soil it often reaches a height of six feet from large bulbs, and the pleasure of looking at one of these magnificent spikes of golden Yellow on a level with your eyes is one you will long remember.

The color is a medium deep yellow, practically without shading of any kind. Flowers very large, often seven open at a time, all facing one way and in pairs. All in all, it is one of the most perfectly built glads in existence and in a color everyone admires and wants.

Size about 1 inch diameter, Each 15c. 12 for \$1.25.

Size about 3-4 inch diameter, Each 12c. 12 for \$1.00.

Bublets, bloom second year, per 100, 75c. 1000, \$5.00.

Be sure **THE BEST YELLOW** is in your Garden.
